3	Agree and well said.	3	Agree
4	True	4	True
5	If you again start with positive st livestock involving initiatives	5	Agreed.
6	Agreed.		...
7	Agreed		I totally agree
8	Yes, those projects should be discouraged		Agreed. Studies showing high welfare p for therapeutics and not prophylaxis), ha include why animals kept within the 5 fr
			True
			Absolutely.
			Agreed
			Yes
			I agree with the suggestion.

ANIMAL WELFARE II

DEFINITIONS

Empahsize what potable is.

Task Forces (1,2,3)

- Constituted according to task at hand to advance Steering Group-determined priorities, objectives and measures of progress and impact.

Membership

- Representatives from NGOs and categorized depending on the nature of work with animals that they are involved in.

Categories ANIMAL WELFARE PROFESSIONALS SCOPE - ...

- Working animals, animals given at farms or households, animals used in research, organic farming, in-service and pre-service training in animal welfare and health for animal health professionals and paraprofessionals, transport and slaughter.

Husbandry

- There should be **standard operating procedures** (SOPs) for the care and management of animals at farms, households and those kept for research purposes.
- The SOPs will be developed and approved consultatively by the task forces concerned with a particular group of animals.

and reviewed annually to ensure continual improvement. .

Negatives should include more examples and not just health related a

Positives should also be emphasized.

the SOPs can be displayed at key visible points.

Drainage and Waste Proposal

- Adequate drainage and waste disposal systems and facilities shall be provided.
- They shall be designed and constructed so that the infection prevention and control is ensured.

the word biosecurity is mentioned.

Use word hygienic. It is better than the word clean-

minimal environmental contamination.

2.4.2 DRAINAGE AND WASTE DISPOSAL SYSTEMS OR METHODS SHOULD AVOID CONTAMINATION OF WATER SOURCES (including underground water) - Addition

Disease

- Sick animals are treated promptly.
- The health of animals shall be maintained at all times.
 - Available vaccinations are given in time.
 - Infection prevention and control is ensured.
 - Diseased animals or herds isolated
 - Monitoring of the occurrence of pathogens in the group/herd so as to get early warnings

Euthanasia must be used.

Policy and Legislation

- Assistance with policy, legislation and implementation in countries or regions of operation.

The word enforcement and consequences must be emphasized.

NGOs operating in these communities should work with.....U|
ADHERRING TO AND IMPLEMENTING guidelines, bylaws etc.

Communication and Advocacy

- There should be **routine collection of data** on the status, evolution and socio-economic impact of animal welfare among communities which will be provided accurately and timely as information and advice for governments, technical and financial international partners.

Records should be compulsory every day, collated monthly &

Feedback for the Task forces

Training

RESPONSES

Annual refresher training

training should be tested through examinations.

strategies around tackling human animal conflict

a trainer of trainee model i

Feedback for the Task forces

Animal care and management

should be an SOP for each activity identified as part of animal husbandry/or care.

alternatives to animals for research should be emphasised

SOP would be widely available in a variety of languages

SOP for each activity identified as part of animal husbandry/or care.

should stipulate minimum quantities for different animals/situations

Recommended. How can this be made to make sense for smallholder animal keepers and pasoralists?

Feedback for the Task forces

Drainage and waste disposal

..Cleaning SOP and cleaning schedule will help

Animal movement

a)This is too broad and needs more description

Quantity 'Animals that are likely to be hostile' with examples. e.g., transporting different species together, animals of different ages, sick/injured (weak) and healthy animals

WAY FORWARD

- Send revised version of the guidelines to conference delegates
- 5 to 10 mins from Audience-
Ideas/suggestions on **what to do next with the guidelines?**

Thank you for your attention!
